

A BRISK DRAMATIC WEEK.

UNUSUALLY NUMEROUS CHANGES OF THEATRICAL BILLS.

The End of Duse's Season—A Busy Time for Mrs. Taber, Mrs. Fiske, and Mr. Mills—Rehearsal of "The Colleen Bawn."

Several New Specialties at the Olympia.

Fifteen different plays are in the bills at four of our theaters this week. Such frequent changes are unusual in these times. Four of the pieces are familiar to the reporters of Eleonora Duse, who made them in her last performances at the Fifth Avenue.

Another new specialty here employs the Frederick troupe of gymnasts. They are five in number, and their performances to look at, and during their performances the stage is aglow with red light.

One of these chaps tucks over backward till his head is on the floor, and then, with a pantomime step from a chair on his stomach, up to these, the last two of the five are lifted by stage hands, and all five stand on their feet, down upon the under man's shoulders.

In another this man lies, face up, across two chairs back, one resting beneath his neck, while the other, which is bent forward, supports his two heaviest companions. They conclude by performing upon two eighteen-foot chairs, one of which is suspended by an inverted "V" from the arms of the gymnast.

A number of novel figures are thus formed by the men's bodies, and all that is difficult is done with apparent ease.

The feature reserved for the ending has one man at the top of the ladder, and balanced head down on his head is another fellow.

CANADA COMPLAINS.

Seven Hundred Whalers in Arctic Waters Accused of Damaging Canada's Interests.

VICTORIA, B.C., March 17.—Steps are to be taken for the better protection of Canadian interests at Herschell Island. As a result of Collector Milne's report the Government will begin a campaign against the American fleet in the Arctic waters, and it is likely that revenue cutters will soon be despatched to the northern island to lie in wait for any reasonable excuse upon which to make arrests.

Seven whaling vessels, all American, and nearly one-half hailing from San Francisco, have this winter been at Herschell Island, hunting the Bowhead whale, killing seals, Fort Ferguson, and demoralizing the Eskimos and Indians. This matter has brought to the attention of the public of letters received from Eliza Clark, the wife of H. R. St. John, missionaries in northern Alaska. It is asserted that the bad influence of unscrupulous whites is extending rapidly to the extinction of the natives.

The Hudson Bay Company's trade carried on overland is seriously injured by the competition of whalers, instead of fitting out annually, as was then custom, until quite recently, are now in the habit of fitting out every year, their supplies being replenished by two steamers from the south which go north every year. The Eskimos and other goods, particularly furs, are taken and other goods, particularly script, are bartered off among the Indians, who, in return, pay handsomely in furs. It is estimated that 700 people passed this winter at Herschell Island.

ABOLISHING LAY JUDGES.

The Voorhees Bill Passed by the New Jersey Senate—Adjournment Fixed.

TRENTON, March 17.—The House was occupied with trolley bills, and passed one limiting the fare on trolley roads in first-class counties to five cents between points in the same county.

The Senate amended and passed the bill confirming the lease of the New York and Greenwood Lake Railroad to the Erie, and ordered it sent to the House at once. The amendment prevents the nullification of the Railroad Law of 1885, which the Attorney-General feared might result from the bill as it stood.

The Voorhees bill abolishing Lay Judges in the county courts was passed by the Senate by a vote of 45 to 10. The House will pass the law which will save the people \$40,000 a year.

The House passed the joint resolution providing for the adoption of a State flag model of the Union Jack, with a central emblem, instead of fitting out annually, as was then custom, until quite recently, are now in the habit of fitting out every year, their supplies being replenished by two steamers from the south which go north every year. The Eskimos and other goods, particularly furs, are taken and other goods, particularly script, are bartered off among the Indians, who, in return, pay handsomely in furs. It is estimated that 700 people passed this winter at Herschell Island.

COWPERTHWAIT'S

Orpheus Box Just as they arrived. No CARPETS chemists used to subdue the colors.

Long BARGAINS NOW.

104 West 14th street.

Warner's safe cure does wonders for sufferers from kidney complaint."—Dr. R. A. GUNN, Editor Medical Tribune, New York.

A remedy for Bright's disease it is unequalled."—Dr. W. E. ROBESON, M. R. C. S. L., London, England.

Received highly by the medical profession of every country."—Dr. M. BEYER, Wurzburg, Germany.

No better remedy known to the profession for the cure of kidney and liver disease."—Dr. DIO LEWIS.

Very remedial failed until I used safe cure for inflammation of the bladder."—Dr. J. POIRAUD, R. A. R. Society, Paris, France.

Remarkable remedy which effects remarkable cures."—Baron V. VERRETTTE, M. D., Vienna, Austria.

For kidney disease until I used safe cure for inflammation of the bladder."—Dr. J. POIRAUD, R. A. R. Society, Paris, France.

Remarkable remedy which effects remarkable cures."—Baron V. VERRETTTE, M. D., Vienna, Austria.
